

TELEMATICS ENGINEERING B. Eng.

SEMESTER 8

## Table of Contents

<u>SEMESTER 1</u> .....	;	Error! Marcador no definido.
<u>Introductory Workshop on Engineering</u> .....	;	Error! Marcador no definido.
<u>Linear Algebra</u> .....	;	Error! Marcador no definido.
<u>Calculus I</u> .....	;	Error! Marcador no definido.
<u>Circuit Analysis I</u> .....	;	Error! Marcador no definido.
<u>Programming I</u> .....	;	Error! Marcador no definido.
<u>Introduction to Telecommunications</u> .....	;	Error! Marcador no definido.
<u>SEMESTER 2</u> .....	;	Error! Marcador no definido.
<u>Professional Communication Skills</u> .....	;	Error! Marcador no definido.
<u>Circuit Analysis II</u> .....	;	Error! Marcador no definido.
<u>Electronics I</u> .....	;	Error! Marcador no definido.
<u>Calculus II</u> .....	;	Error! Marcador no definido.
<u>Programming II</u> .....	;	Error! Marcador no definido.
<u>Search Techniques and Information Systems</u> .....	;	Error! Marcador no definido.
<u>SEMESTER 3</u> .....	;	Error! Marcador no definido.
<u>Electromagnetism and Waves</u> .....	;	Error! Marcador no definido.
<u>Statistics and Stochastic Processes</u> .....	;	Error! Marcador no definido.
<u>Electronics II</u> .....	;	Error! Marcador no definido.
<u>Telecommunication Networks and Services</u> .....	;	Error! Marcador no definido.
<u>Signals and Systems</u> .....	;	Error! Marcador no definido.
<u>SEMESTER 4</u> .....	;	Error! Marcador no definido.
<u>Science, Technology and Society</u> .....	;	Error! Marcador no definido.
<u>Wave Propagation</u> .....	;	Error! Marcador no definido.
<u>Computer Networks</u> .....	;	Error! Marcador no definido.
<u>Microprocessors</u> .....	;	Error! Marcador no definido.
<u>Communication Theory</u> .....	;	Error! Marcador no definido.
<u>Advanced Application Programming</u> .....	;	Error! Marcador no definido.
<u>SEMESTER 5</u> .....	;	Error! Marcador no definido.
<u>Economics and Business Management</u> .....	;	Error! Marcador no definido.
<u>Operating Systems</u> .....	;	Error! Marcador no definido.
<u>Modeling Languages</u> .....	;	Error! Marcador no definido.
<u>Signaling and Switching</u> .....	;	Error! Marcador no definido.
<u>Transmission Systems</u> .....	;	Error! Marcador no definido.
<u>Audiovisual Systems</u> .....	;	Error! Marcador no definido.
<u>SEMESTRE 6</u> .....	;	Error! Marcador no definido.
<u>Digital Signal Processing</u> .....	;	Error! Marcador no definido.
<u>Advanced Networks and Services</u> .....	;	Error! Marcador no definido.
<u>Networks and Services Security</u> .....	;	Error! Marcador no definido.
<u>Information Processing in Telematic Applications</u> .....	;	Error! Marcador no definido.
<u>SEMESTER 7</u> .....	;	Error! Marcador no definido.
<u>English for Professional and Academic Communication</u> .....	;	Error! Marcador no definido.
<u>Mobile Communications Networks</u> .....	;	Error! Marcador no definido.
<u>Communications Software</u> .....	;	Error! Marcador no definido.
<u>SEMESTER 8</u> .....	;	Error! Marcador no definido.
<u>Project Management</u> .....		5
<u>Advanced Telematic Applications</u> .....		7
<u>Final Degree Project</u> .....		9
<u>TYPE A ELECTIVE COURSES</u> .....	;	Error! Marcador no definido.
<u>Network and System Administration</u> .....	;	Error! Marcador no definido.
<u>Access Networks Technologies</u> .....	;	Error! Marcador no definido.
<u>Mobile Applications Development</u> .....	;	Error! Marcador no definido.
<u>Systems Engineering</u> .....	;	Error! Marcador no definido.

<a href="#">Applications for Raspberry Pi</a> .....	;	Error! Marcador no definido.
<a href="#">Web Based Telematic Applications</a> .....	;	Error! Marcador no definido.
<a href="#">Distributed Systems Development</a> .....	;	Error! Marcador no definido.
<b>TYPE B ELECTIVE COURSES</b> .....	;	Error! Marcador no definido.
<a href="#">Analog Electronics I</a> .....	;	Error! Marcador no definido.
<a href="#">Digital Design I</a> .....	;	Error! Marcador no definido.
<a href="#">Microprocessor-based Systems</a> .....	;	Error! Marcador no definido.
<a href="#">Production Technologies of Electronics Systems</a> .....	;	Error! Marcador no definido.
<a href="#">Wave Transmission and Propagation</a> .....	;	Error! Marcador no definido.
<a href="#">Communications Electronics I</a> .....	;	Error! Marcador no definido.
<a href="#">Analog Electronics</a> .....	;	Error! Marcador no definido.
<a href="#">Communications Electronics II</a> .....	;	Error! Marcador no definido.
<a href="#">Audio Engineering I</a> .....	;	Error! Marcador no definido.
<a href="#">Image and Video Technologies</a> .....	;	Error! Marcador no definido.
<a href="#">Sound and Image Fundamentals</a> .....	;	Error! Marcador no definido.
<a href="#">Audio Engineering II</a> .....	;	Error! Marcador no definido.
<b>TYPE C ELECTIVE COURSES</b> .....	;	Error! Marcador no definido.
<a href="#">Introduction to Professional and Academic Communication I</a> .....	;	Error! Marcador no definido.
<a href="#">Discrete Mathematics</a> .....	;	Error! Marcador no definido.
<a href="#">ICT in Defense Applications</a> .....	;	Error! Marcador no definido.
<a href="#">Renewable Energy</a> .....	;	Error! Marcador no definido.
<a href="#">Smart Home</a> .....	;	Error! Marcador no definido.
<a href="#">Telecommunications Common Infrastructures</a> .....	;	Error! Marcador no definido.
<a href="#">Introduction to Professional and Academic Communication II</a> .....	;	Error! Marcador no definido.
<a href="#">Management of Technological Innovation</a> .....	;	Error! Marcador no definido.
<a href="#">Dynamical Systems</a> .....	;	Error! Marcador no definido.
<b>INTERNSHIP AND MOBILITY</b> .....	;	Error! Marcador no definido.
<a href="#">Internship</a> .....	;	Error! Marcador no definido.
<a href="#">Mobility</a> .....	;	Error! Marcador no definido.

**Year 2015/16**

<b>Course Name:</b>	Project Management	<b>Course Code:</b>	595000236
<b>Year:</b>	4	<b>Semester:</b>	8
<b>Credits (ECTS):</b>	4,5	<b>Credit Hours:</b>	3
<b>Area:</b>	Organization Engineering	<b>Type:</b>	Engineering Topic / Required
<b>Term:</b>	Spring	<b>Language:</b>	Spanish
<b>Prerequisites / Co-requisites:</b>		None	
<b>Coordinator:</b>		Margarita Martínez	
<b>Bachelor Engineering Program:</b>		Telematics Engineering Communications Electronics Engineering Telecommunications Systems Engineering Sound and Image Engineering	

### Course Contents

1. Introduction to Project management
2. Starting a Project and feasibility studies
3. The engineering Project
4. Methodology of Project management
5. The professional environment of the Project maker

### ABET Student Outcomes

- (b) An ability to design and conduct experiments, as well as to analyze and interpret data
- (c) An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
- (d) An ability to function on multidisciplinary teams
- (e) An ability to identify, formulate, and solve engineering problems
- (f) An understanding of professional and ethical responsibility
- (g) An ability to communicate effectively
- (h) The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
- (i) A recognition of the need for, and an ability to engage in life-long learning
- (j) A knowledge of contemporary issues
- (k) An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

### Study Outcomes (according to the Spanish program definition)

CG 03 Skilled for public speaking and in written and communicating information

- throughout documents and public speeches.
- CG 05 Ability for teamwork in multidisciplinary environments.
- CG 06 Ability for adaptability, negotiation, conflict resolution and leadership.
- CG 07 Ability to design, manage, and direct projects.
- CG 08 Ability to organize, plan and make decisions.
- CG 09 Ability to analyze and assess the social and environmental impact of technical solutions.
- CG 10 Ability to handle specifications, rules and regulations and to apply them in the practice of the profession.
- CG 14 An attitude of Ethics and professional responsibility, as well as respect for human rights and cultural diversity.
- CE B5 Acceptable knowledge of the concept of company, institutional and juridical frame of the company. Companies Organization and management.
- CE TEL 01 Ability to use communication and computer applications (office automation, databases, advanced calculus, project management, visualization...) to support the development and utilization of networks, services and telecommunication and electronics applicati
- CE TEL 02 Ability to use applications of communication and computer (office automation, databases, advanced calculus, management of projects, visualization...) to support the development and utilization of nets, services and applications of telecommunication and electronics.
- CE TEL 06 Knowledge and use of the principles of programming in telecommunication networks, systems and services.ntinuous improvement, as well as knowing their economic and social impact.

### **Specific outcomes of instruction (according to the Spanish program definition)**

- 1.- Knowledge of the project basics and knowledge of the peculiarities of the telecommunication project.
- 3.- Knowledge of the main techniques of evaluation of projects (go, IR, IRR).
- 4.- Knowledge of the main techniques of programming projects (GANT, PERT).
- 5.- Familiarity with the project documents: memory, plans, specifications, budget.
- 6.- Identify the main risks associated with the development of a project.
- 7.- Prepare technical presentations for the oral defense of an engineering project properly using audiovisual media.
- 8.- Construct time diagrams using planning and scheduling tools of projects.
- 9.- Describe the main functions and responsibilities of a project manager..
- 10.- Find the necessary information for the design of an engineering project.
- 11.- Assess the feasibility of an engineering project from the technical, environmental, economic and financial point of view.
- 12.- Write correctly the contents of a technical project, according to contained minimum requirements by legislation
- 13.- Identify the rules and regulations of application to engineering in a determined field projects.

### **Bibliography**

“Introducción a la gestión de proyectos. La iniciación del proyecto y sus estudios de viabilidad. El proyecto de ingeniería. Metodología de la gestión de proyectos”, M. Martínez, W. Pérez y F. del Río, Dpto. Publicaciones, 2013.

**Year 2015/16**

<b>Course Name:</b>	Advanced Telematic Applications	<b>Course Code:</b>	595000237
<b>Year:</b>	4	<b>Semester:</b>	8
<b>Credits (ECTS):</b>	4,5	<b>Credit Hours:</b>	3
<b>Area:</b>	Telematics Applications	<b>Type:</b>	Engineering Topic / Required
<b>Term:</b>	Spring	<b>Language:</b>	Spanish
<b>Prerequisites / Co-requisites:</b>	Modeling Languages Advanced Networks and Services Communications Software		
<b>Coordinator:</b>	José Fernán Martínez		
<b>Bachelor Engineering Program:</b>	Telematics Engineering		

### Course Contents

1. Robotics Technology
2. Robotics: Systems and Tools
3. Robotics: Perception and Navigation
4. Robotics: Cognition

### ABET Student Outcomes

- (b) An ability to design and conduct experiments, as well as to analyze and interpret data
- (d) An ability to function on multidisciplinary teams
- (g) An ability to communicate effectively
- (h) The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
- (j) A knowledge of contemporary issues
- (k) An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

### Study Outcomes (according to the Spanish program definition)

- CE TM03 Ability to build, utilize, and manage telematic services, including internet, web, architectural design (data and protocols), programming, distributed knowledge management, multimedia information management, using analytic tools for planning, dimensioning, and analysis.
- CE TM08 Ability to carry out professional projects in the specific field of telecommunication technologies in which competences attained in the program have to be synthesized and integrated.
- CG 03 Skilled for public speaking and in written and communicating information

throughout documents and public speeches.

CG 05 Ability for teamwork in multidisciplinary environments.

CG 06 Ability for adaptability, negotiation, conflict resolution and leadership.

CG 11 Skills for the use of Information and Communication Technologies..

### **Specific outcomes of instruction (according to the Spanish program definition)**

- 1.- Describe new technique associated with the specification and design of complex electronic systems.
- 2.- Know and manage development platforms of telematics applications in different contexts.
- 3.- Identify technological challenges in the domain of new generation networks and telematics services.
- 4.- Understand and apply concepts of network architectures and emerging telematics services to specific technological challenges.
- 5.- Understand advanced concepts regarding design and modeling of systems.
- 6.- Apply new techniques to the solution of technological problems in the area of networks and new generation telematics services.

<b>Course Name:</b>	Final Degree Project	<b>Course Code:</b>	59500240
<b>Year:</b>	4	<b>Semester:</b>	8
<b>Credits (ECTS):</b>	12	<b>Credit Hours:</b>	8
<b>Area:</b>	Common UPM Skills	<b>Type:</b>	Engineering Topic / Required
<b>Term:</b>	Fall / Spring	<b>Language:</b>	Spanish / English
<b>Prerequisites / Co-requisites:</b>		200 ECTS passed	
<b>Coordinator:</b>		Head of Studies	
<b>Bachelor Engineering Program:</b>		Telematics Engineering Communications Electronics Engineering Telecommunications Systems Engineering Sound and Image Engineering	

### **ABET Student Outcomes**

- (a) An ability to apply knowledge of mathematics, science, and engineering
- (b) An ability to design and conduct experiments, as well as to analyze and interpret data
- (c) An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
- (e) An ability to identify, formulate, and solve engineering problems
- (f) An understanding of professional and ethical responsibility
- (g) An ability to communicate effectively
- (h) The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
- (i) A recognition of the need for, and an ability to engage in life-long learning
- (j) A knowledge of contemporary issues
- (k) An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

### **Study Outcomes (according to the Spanish program definition)**

- CG 02 Ability to express oneself in oral and written form, and to convey information through documents and public presentations..
- CG 03 Skilled for public speaking and in written and communicating information throughout documents and public speeches.
- CG 04 Ability to abstract, analyze, and synthesize, and to solve problems.
- CG 07 Ability to design, manage, and direct projects.
- CG 08 Ability to organize, plan and make decisions.

CG 10	Ability to handle specifications, rules and regulations and to apply them in the practice of the profession.
CG11	Skills for the use of Information and Communication Technologies..
CG 13	Learning skills with a high degree of autonomy.
CE TEL 03	Ability to use computer tools of search of bibliographical resources or of information related to the telecommunications and the electronics.
CE TM08	Ability to carry out professional projects in the specific field of telecommunication technologies in which competences attained in the program have to be synthesized and integrated.

### **Specific outcomes of instruction (according to the Spanish program definition)**

- 1.- Identify and describe the problem or issue subject to investigation or analysis, taking into account the context conditions.
- 2.- Analyze a problem at different levels of abstraction.
- 3.- Set hypotheses and research objectives.
- 4.- Develop and substantiate solutions and recommendations, including multidisciplinary expertise when required.
- 5.- Write a memory of the work including temporary planning and, if appropriate, cost.
- 6.- Assess the quality of a research based on its utility.
- 7.- Collect bibliographic information, at least in two languages, concerning a concrete problem.
- 8.- Use software support to presentations.
- 9.- Using spreadsheet or other software to process data and results.
- 10.- Use specific software.
- 11.- Describe the basic knowledge related to the project, both the own field of knowledge and other related.
- 12.- Decide on the veracity and validity of theories and models considering, among other things, the assumptions on which they are based.
- 13.- Analyse results
- 14.- Design and evaluate experiments.
- 15.- Learn through non-guided study.
- 16.- Communicate results orally.
- 17.- Know and understand the relevance of historical milestones in the progress of the own field of knowledge.
- 18.- Identify, assess and discuss the social and ethical implications of technological developments.
